NORTH AFRICA AND THE MEDITERRANEAN'S LEADING OIL, GAS & ENERGY SHOW

Under the patronage and attendance of His Excellency Abdel Fattah El Sisi, President of the Arab Republic of Egypt, and supported by the Ministry of Petroleum and Mineral Resources, the Egypt Petroleum Show (EGYPS) marked its 6th edition from 13-15 February 2023 in Cairo, with distinguished guests, including Ministers, Secretary Generals, global CEOs, policymakers, and business leaders from across the entire energy value chain in attendance.

During the Conference panels and dialogues, the focus was on energy transition and decarbonisation efforts with insights on how the industry is scaling up on investments to boost responsible and zero-carbon efficiency of fossil fuel operations, aligning with global efforts towards a more sustainable climate-conscious future for generations to come.

EGYPS 2023 highlighted the importance of addressing the energy trilemma in a holistic manner, with a focus on innovation, collaboration, and integration of various energy sources.

EGYPS 2023 concluded with resounding success, attracting over 40,135 trade professionals and 418 leading companies in the energy sector. The Show reaffirmed Egypt's strategic regional role in the industry.

“ EGYPS has been an important part of the energy industry for over six years, and it's only getting better. I've seen it grow from a small event to a huge Show that draws companies and investments from around the world. EGYPS has helped Egypt establish itself as a regional energy hub with plans to be known as the Mediterranean Energy Hub soon. ”

EGYPS STRATEGIC CONFERENCE

The EGYPS 2023 Strategic Conference convened the energy community to address the ongoing transition to a new global energy system.

Through a series of keynotes, ministerial and global business leader panels, the conversation was driven by the industry's move from climate commitments to actions and continued efforts to decarbonise oil and gas operations.

At the same time, the thought-provoking discussions put the spotlight on the continued need for the industry to evolve and how the reshaping of global markets continue at pace, driven by new geographical supply and demand dynamics.

EGYPS TECHNICAL CONFERENCE

Created by engineers for the industry, the EGYPS 2023 Technical Conference showcased the industry's oil, gas and energy value chain from state-of-the-art technologies, trends, challenges and best practices.

With the energy landscape evolving at pace, during the 45 sessions, 296 technical expert speakers shed light on efforts to drive the energy transition and intensify measures to decarbonise oil and gas operations and drive low-carbon initiatives across the downstream ecosystem.

19 TECHNICAL CATEGORIES

 Upstream: Exploration of Conventional Resources (CONV)	 Upstream: Exploration of Unconventional Resources (UNCONV)	 Geoscience: Upstream Technology Developments (GEOT)	 Oil and Gas Field Development (FD)	 Drilling (DR)
 Completions (COMPL)	 Gas/LNG Processing, Transportation, Operations and Technology (GAS)	 Midstream: Transportation, Storage and Infrastructure (MID)	 Offshore and Marine Technology and Operations (MAR)	 Oil and Gas Economics, Concession Agreements and Project Finance (FIN)
 Project Management and Execution (PM)	 Operational Excellence (OpEx)	 Health & Safety (HS)	 Environmental Sustainability, Climate Change and Energy Transition (ENV)	 Downstream: Refining Technology, Operations and Marketing (REF)
 Downstream: Petrochemicals Technology and Operations (PET)	 Hydrogen, Biofuels, Alternative Fuels and Renewable Energy (BIO)	 Digitalisation of Oil and Gas (DIGI)	 People and Talent Development (PPL)	

EGYPS FINANCE & INVESTMENT IN ENERGY CONFERENCE

The EGYPS Finance & Investment in Energy Conference gathered global and regional sustainable finance leaders including investors, economists, ESG and climate funding experts to discuss the challenges and opportunities in financing the energy transition to pave the way for a more sustainable and equitable energy future.

Through a series of panel discussions, industry leaders addressed how the energy value chain can be resilient when facing future economic and geopolitical uncertainties. The conference also explored the financial models required to facilitate increased investment in clean energy.

“ EGYPS is a good platform to collaborate not just for Egypt, but for the region to see the progress the country has made, but also to share successful stories that will help increase investments and collaboration for a better world. ”

EGYPS SUSTAINABILITY IN ENERGY CONFERENCE & AWARDS

LEAD SPONSOR

SESSION SPONSOR

HALLIBURTON

Global energy leaders, HSE executives, and experts in energy transition, sustainability, and climate change participated in the EGYPS 2023 Sustainability in Energy Conference to explore how the industry can incorporate sustainable practices into their business models and workplaces to combat climate change and support the energy transition. In addition, distinguished speakers delved into how energy companies can enhance their safety culture while also making a positive impact on the environment and the communities in which they operate.

The conference was followed by the EGYPS Global Sustainability in Energy Awards to recognise outstanding and impactful ESG, CSR and HSE projects from the oil, gas and wider energy sector.

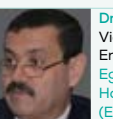

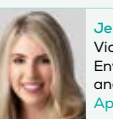

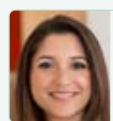

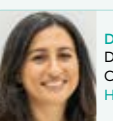

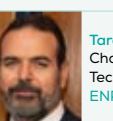

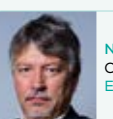

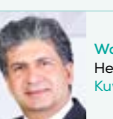

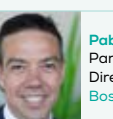

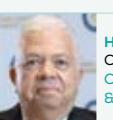

“ EGYPS is a great opportunity to get connected to other players, whether they are other upstreamers or suppliers or service companies, but as well as governments. This is not only for Egypt, this is in Egypt, but actually covering the whole region. It's a very good place to be, to build network, to build partnerships, but as well to showcase the different companies and what they stand for. ”

EGYPS EQUALITY IN ENERGY CONFERENCE & AWARDS

LEAD SPONSOR

“ EGYPS this year, we’ve seen, feels like a much bigger Show. I’ve seen a lot of representation from various global companies showing a greater interest in this region. The number and the depth of discussions that we’ve had has been really phenomenal. You get an insight to what is coming up next and in terms of just getting closer to our customers and understanding their real areas where they need additional support, because that helps us shape our organization to support that area better. So EGYPS is helping us achieve our vision. ”

AMRU ALABIDI

Senior Vice President – Oman, UAE, Iraq and North Africa, Worley

The EGYPS 2023 Equality in Energy Conference brought together leaders in the global industry, including experts in organizational change management, inclusion, and sustainability. The conference focused on the importance of talent strategy as a crucial priority in creating a workforce that supports the goal of achieving net-zero emissions, and also included discussions on how the energy sector can address concerns about sustainability and environmental impact to appeal millennials and gen Z.

The conference was followed by the EGYPS Global Equality in Energy Awards to recognise and celebrate the achievements of trailblazing females who are making an impact in the industry. The Awards, which were shaped by three distinct categories, honoured the achievements of individuals from the worldwide energy industry, including outstanding female executives, high-potential female students, and high-performing women who have the potential to become future business leaders.

Fostering the Youth. Reshaping The Energy Sector of The Future.

The 5th edition of the EGYPS Youth Engagement Programme hosted 300+ high school students who participated in the educational workshops based on the STEM framework. In addition to the Engineering, Robotics, Entrepreneurship, Cybersecurity, Artificial Intelligence and Offshore Rig zones, the Sustainability zone was added this year to engage students on sustainable practices to save our planet. The Youth Talks featured 3 motivational sessions providing students with insights on career opportunities in the oil & gas industry and a session on Green Hydrogen to cultivate the importance of a sustainable future. The students participated in a guided tour to explore the exhibition to gain a real-world experience of current industry trends.

Fostering Our Youth For The New Energy Reality

200+ students from major universities and colleges in Egypt including Cairo University, Ain Shams University, Mansoura University, Zagazig University, Tanta University and Suez University at participated in the Young Professionals Programme and had an opportunity to engage and connect with industry leaders and executives from the world's leading oil, gas and energy companies.

The Youth Talks delivered 11 sessions and covered specialised topics on Cybersecurity, Green Hydrogen, Technologies in the Energy Industry to educate them on the growing trends in the industry as well as leadership and motivational sessions to prepare them for the future.

The programme was graced with the presence of His Excellency Haitham Al Ghais, the Secretary General of OPEC and Amr Abou Eita, the Chairman and Managing Director of ExxonMobil who delivered the 'Young Professional Fireside Chats' to give them insights about the oil, gas and energy industries, its opportunities and challenges, and their role in reshaping the future.

Educational workshops and fieldtrips conducted by ExxonMobil and Petrojet further involved the students with immersive learning experiences about specific operations in an oil & gas company.

“Engaging during EGYPS with the Young Professionals in a Fireside Chat has been an inspiring experience this year. The young students from Egyptian universities have inspired and energized me with their participation, commitment and passion. Volunteering and investing in youth has always been a focus of ExxonMobil Egypt, seeking to add value and transfer knowledge whenever possible. Sponsoring the Youth Engagement and Young Professionals Programmes since their inception stems from our belief that investing in today's generations is crucial for tomorrow's future.”

AMR ABOU EITA

Chairman and Managing Director, ExxonMobil Egypt

The EGYPS Gala Dinner was a momentous evening of celebrating business partnerships and friendships across the oil, gas and energy industry.

His Excellency Tarek El Molla, Egypt's Minister of Petroleum and Mineral Resources, welcomed 600+ international and regional figures from the industry. The Minister celebrated the ongoing transition of the Egypt Petroleum Show to the Egypt Energy Show, becoming more inclusive of all kinds of energy. He also expressed his appreciation as more international players continue to recognise Egypt as a regional hub and strategic destination to invest in the energy sector. Guests were entertained with a full evening of cultural music, dancing and storytelling.

HEADLINE SPONSOR

SUITE SPONSOR

CATERING SPONSOR

The EGYPS Energy Club 2023 hosted 950+ members including Ministers, dignitaries, global CEOs and thought leaders. Equipped with superb hospitality, the club provided a platform for the industry's elite to network and host meetings in a private setting within the busy exhibition halls.

Designed around a dedicated office of the Minister of Petroleum and Mineral Resources, the club served as a perfect venue to meet with and forge strategic partnerships with top decision makers in the industry.

The club also hosted exclusive meeting suites for executives of Shell, SLB and Worley where meetings were conducted throughout the exhibition days. EEC membership also provided a range of benefits including all day refreshments and a daily sumptuous lunch buffet, comfortable seating lounges, dedicated registration, reception and VIP parking.

LEADING EGYPT'S ENERGY SECTOR TOWARDS A DIGITAL FUTURE

The digital transformation of the energy sector in Egypt is gaining momentum and revolutionising the way the industry operates. Through advanced technological solutions, businesses are unlocking new efficiencies and cost-savings, while gaining deeper insights into their operations.

The EGYPS Digitalisation in Energy Zone served as a global platform to showcase these technical and digital innovations. We're proud to be leading the charge towards a net-zero future and providing a forum for industry leaders to exchange ideas and insights.

“The Egypt Petroleum Show has really proven itself to be one of the most important exhibitions for the energy sector to gather at.”

EGYPS FEATURED IN MEDIA

Tuesday, 14 February 2023

Conference report: Flat(ish) LNG exports to EU, Dana Gas to commit more to Egypt • greening the petroleum industry

The EU doesn't expect to import more LNG from Egypt this year. Last year's agreement to boost natural gas exports to the EU from Israel and Egypt will allow Cairo to "keep the relatively high volumes of LNG that it delivered to Europe last year," EU Energy Commissioner Kadri Simson told Reuters on the sidelines of the Egypt Petroleum Show (EGYPS).

El Molla agrees: LNG production in 2023 is expected to stay flat at around 7.5 mtpa — in line with 2022, when 80% of output went to Europe, Oil Minister Tarek El Molla said at EGYPS yesterday, according to Reuters.

We still have spare capacity at our two liquefaction plants, El Molla said during the conference. "They are there prepared for the time when we make the decision to increase their capacity to double or triple," he said.

SISI: DISCOVERIES OF THE EASTERN MEDITERRANEAN GAS FORUM EASE THE GAS CRISIS IN EUROPE

Sunday 12 Feb 2023 - 08:01

Regional

NNA - Egyptian President Abdel Fattah El-Sisi announced that the discoveries of the Eastern Mediterranean Gas Forum play a role in mitigating the effects of the crisis and the demand for gas for Europe during the next stage, according to "Russia Today" news agency.

Sisi said in his speech during a dialogue session on the importance of cooperation in the field of energy and climate change within the activities of the opening of the Egyptian International Petroleum Exhibition and Conference "EGYPS 2023": "The Eastern Mediterranean Gas Forum and the effort that we are making with research and exploration companies will remain the decisive element."

He added: "The forum works in turn to mitigate the effects of the crisis and the demand for gas for Europe during the next stage, and all discoveries, whether in

Emerson to showcase innovative and sustainable technologies at EGYPS 2023

Published by Sara Simper, Editorial Assistant

World Pipelines, Monday, 13 February 2023 13:00

[Save to read list](#)

Global software and engineering leader Emerson will be exhibiting at the Egypt Petroleum Show (EGYPS 2023), which is being held 13 - 15 February at the Egypt International Exhibition Centre in Cairo.

At the event, held under the patronage of His Excellency Abdel Fattah El Sisi, President of the Arab Republic of Egypt, Emerson will showcase advanced technologies for process automation, digital transformation, and asset optimisation aimed at accelerating energy efficiency, lowering carbon emissions, and promoting operational excellence across the energy sector.

"We are pleased to be at EGYPS 2023 exhibiting our advanced solutions and automation technologies that drive growth in the energy sector," said Vidya Ramnath, President of Emerson's Middle East & Africa business. "As part of global initiatives to transition to a more efficient and greener future, and in line with Emerson's net-zero targets, we are continuously developing our portfolio to help customers ensure sustainable operations."

At the Emerson booth, visitors will have the opportunity to learn more about automation technologies through live demonstrations and visioning sessions. Emerson experts will also participate in panel discussions and presentations covering a range of topics including change management, cultural diversity, operational excellence, and asset integrity.

The Egypt Petroleum Show is one of the most influential events in the oil and gas industry. It gathers professionals from across the region to discuss and collaborate and devise effective strategies and solutions that would steer the energy sector towards a more sustainable future. Emerson's exhibit at EGYPS can be found at booth #L2L40.

The sixth edition of the Egypt Petroleum Show (EGYPS 2023) got off to a roaring start on Sunday following its inauguration by His Excellency Abdel Fattah El Sisi, President of the Arab Republic of Egypt, in the presence of the Egyptian Minister of Petroleum and Mineral Resources, prominent dignitaries, global energy CEOs, as well as industry influencers, decision-makers and investors across the energy sector.

Running from February 13 to 15 at the Egypt International Exhibition Center in Cairo, EGYPS 2023 is being held under the theme 'North Africa and The Mediterranean: Supporting Sustainable Global Energy Production and Demand'. Addressing global energy security, decarbonisation and achieving the global

THE OFFICIAL EGYPS MOBILE APP

The EGYPS Mobile App was the official platform for all participants to navigate their EGYPS experience.

With convenient search functions and AI-powered matchmaking feature, participants were able to quickly and easily connect with other visitors, delegates, exhibitors, speakers, and more. Attendees enjoyed a seamless and innovative digital experience for connecting people to create meaningful relationships.
