European distribution hub par excellence

750,000 m³

storage capacity of
polymers in silos

9.6 million m³

storage capacity
liquid bulk

6.15 million m²

covered storage

300,000 m²

surface area
all weather terminal

7

steel service
centers

9

vehicle processing
centers

26

terminals specialized
in breakbulk

175,000 +

pallet spaces
cold storage

10,024

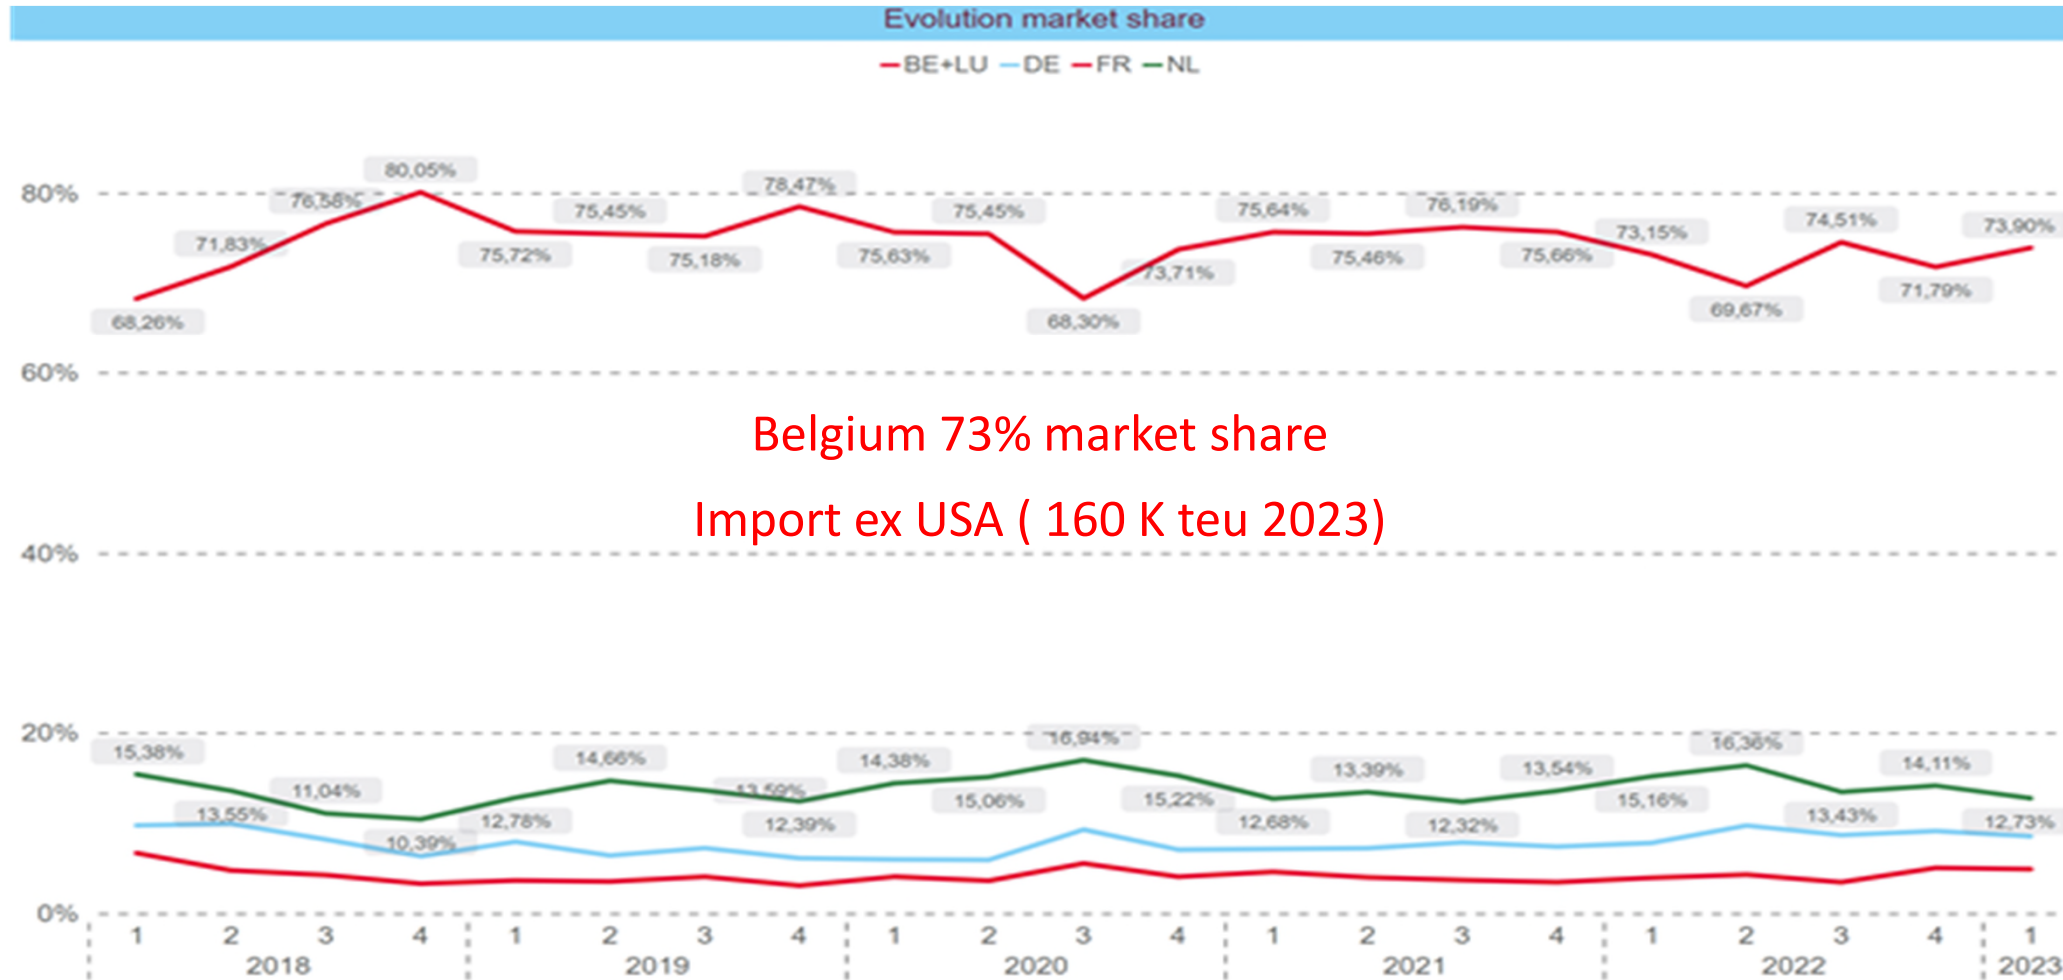

reefer plugs

3

equipment processing
centers

Resin hub par excellence

Multimodal connectivity

Gateway to and from the European hinterland

Rail

Inland navigation

Road

Shortsea

Pipeline

60% of European
consumer market
within range of 500 km

How to accomodate the influx?

- extra capacity (?)
- decrease European production
- inland / satellites
 - > extended gateway
 - >MICH
 - > + cheaper – greener – closer
 - > - flexibility
